## The Team:

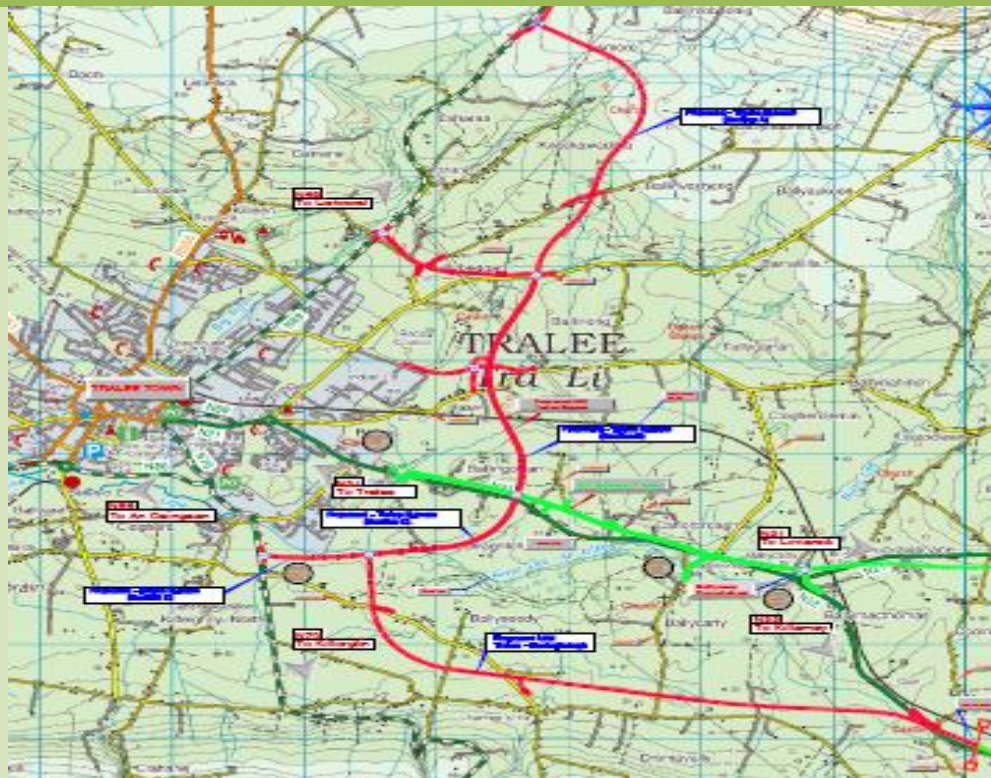

**NRA**  
National Roads Authority  
An tUdarás um Bóithre Náisiúnta

**Kerry NRDO**  
National Road Design Office  
Oifig Deartha um Bóithre Náisiúnta Chiarraí

**Halcrow Barry**

**bam**  
civil **ARUP**

*Established in 1958, BAM Civil (formerly Ascon), is the largest civil engineering and public works contractor in Ireland.*

*BAM Civil prides itself on delivering quality projects safely, on time and within budget. Innovative solutions, engineering ingenuity, adherence to the highest safety and quality standards and professional construction management are the hallmarks of BAM Civil contracts.*

*With unparalleled experience in the construction of roads and bridges in Ireland, it has been responsible for many successful projects throughout the country. Many of these projects such as the Castleisland by-pass have been completed in urban settings which required intricate planning and traffic management.*

*From the beginning of the Tralee Bypass construction, BAM Civil will be using Local Contractors, along with local machines and suppliers, where possible. We aim to minimise the disruption to the town during the construction phase and look forward to seeing Tralee congestion free in the future.*

## Environmental Policy

*BAM Civil and BAM Building promote a responsible and proactive approach to environmental and waste management at every level of our operations in Ireland.*

*We are committed to managing our operations with diligence and with the awareness that our goal is to minimise potentially adverse effects on the environment, and we give high priority to the prevention of pollution to air, water and land. Our objective is to achieve the highest standards of environmental protection through continual improvement in environmental performance across all operations of the business.*

# THE N22 / N69 Tralee By-Pass

**No. of Structures:**

3 River Bridge

1 Railway Bridge

3 Over bridges

10 Accommodation Underpasses

10 Culverts

Site Clearance & Earthworks

Erection of Fencing to railway

Traffic Management for the construction of new Roundabouts on the Listowel and Castleisland Roads

**Speed Limit Order:** The existing 60km/h has been extended along a section of N21 National Primary Roads in the townland of Curraghlae, Castleisland Road. This is in order to facilitate the construction of the proposed roundabouts with the by-pass.

**Site Access Points:** Various site access points have been established over the past month. These points have been signed and we would ask road users to slow down at these locations due to slow moving vehicle entering and leaving the site.

**Road Closures:** Local road closures are currently being planned and will be notified shortly. These are required to facilitate the proposed construction works and local diversions will be sign posted to minimise any disruption to road users.

**Upcoming works:** Planned works for the next 3 months include commencement of bulk earthworks, rock excavation, boundary fencing, service diversions, culvert/underpass installation along the commencement of the railway bridge. We would like to apologise for any inconvenience that may be experienced as a result of the on-

**If you have any queries, please contact the BAM Site Office - Phone: 066 7169730**
